@ Brigabiola@outlook.com

Denver, CO

## SKILLS

### Front-end

HTML CSS jQuery Javascript

### Back-end

MYSQL PHP MongoDB MERN stack

### Frameworks

Wordpress Bootstrap

## EXPERIENCE

### Lead Listing Specialist

#### Vacasa

08/2017 - 10/2019 Boise, ID

Vacasa is a vacation rental property management technology company specializing in dynamically pricing each home managed.

- Transitioned 5,000+ listings from a 3rd party channel manager to an in house API for Booking.com's booking platform.
- Built process to sell multi-unit listings through OTA's such as Booking.com and Expedia and paved the way for Vacasa's developers to create that functionality on Vacasa.com.
- Grew our Google My Business locations from 20 to 120 and managed those listings' content, redirects, and review collection.

## PASSIONS

### Traveling

Love the opportunity to combine work with travel and expand my network

### Scuba Diving

I've been on 100+ dives and earned my dive master certificate in Koh Tao, Thailand in 2017.

## EDUCATION

### Full Stack Web Development

University of Denver

10/2019 - Ongoing

GPA

4.0 / 4.0

### B.S. Marketing-Emphasis in Entrepreneurship

University of Idaho

08/2010 - 05/2014

## PROJECTS

### Portfolio

10/2019 - 12/2019 Denver, CO

[https://brigab.github.io/updated-Portfolio-index.html/](https://brigab.github.io/updated-Portfolio-index.html)

A professional compilation of my work

- Responsive and mobile first layout using Bootstrap framework
- Flexibility to add more content in the future

### Satisfy Your Craving

12/2019 - 12/2019 Denver, CO

<https://hmbudzinski.github.io/OfficialProjectOne/>

Easy to use dessert specific app that returns recipe options from an API.

- Fulfilled all project requirements including using two client side API's as well as a third party API
- Accounted for user error and incorrect user input
- Responsive and mobile first using Skeleton as the framework
